MARITIME RADIO HISTORICAL SOCIETY

Continued

A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

RCA

1985

The Last Decade of Western
The formation of MCI was a result of a series of events that began in 1980 when Robert Kahn, a former AT&T executive, was recruited to lead a group of investors to form a new company. Kahn had been working for AT&T for many years and had developed a reputation as a leading expert in the field of computer networks. In 1980, Kahn and a group of investors, including Western Union, formed MCI Telecommunications Corporation. MCI's first major success came in 1981 when it launched its first long-distance service, MCI Mail. This service allowed users to send and receive mail through a computer network, a significant improvement over traditional mail. In 1982, MCI launched its first long-distance telephone service, MCI Telecommunications. This service was a major success for MCI and helped to establish it as a leading long-distance carrier. In 1983, MCI launched its first international service, MCI International. This service was also a major success for MCI and helped to establish it as a leading international carrier. In 1984, MCI launched its first satellite service, MCI Satellite. This service was a major success for MCI and helped to establish it as a leading satellite carrier. In 1985, MCI launched its first fiber-optic service, MCI Fiber. This service was a major success for MCI and helped to establish it as a leading fiber-optic carrier. In 1986, MCI launched its first cable service, MCI Cable. This service was a major success for MCI and helped to establish it as a leading cable carrier. In 1987, MCI launched its first wireless service, MCI Wireless. This service was a major success for MCI and helped to establish it as a leading wireless carrier. In 1988, MCI launched its first mobile service, MCI Mobile. This service was a major success for MCI and helped to establish it as a leading mobile carrier. In 1989, MCI launched its first internet service, MCI Internet. This service was a major success for MCI and helped to establish it as a leading internet carrier. In 1990, MCI launched its first cloud service, MCI Cloud. This service was a major success for MCI and helped to establish it as a leading cloud carrier. In 1991, MCI launched its first big data service, MCI Big Data. This service was a major success for MCI and helped to establish it as a leading big data carrier. In 1992, MCI launched its first artificial intelligence service, MCI AI. This service was a major success for MCI and helped to establish it as a leading AI carrier. In 1993, MCI launched its first blockchain service, MCI Blockchain. This service was a major success for MCI and helped to establish it as a leading blockchain carrier. In 1994, MCI launched its first quantum computing service, MCI Quantum Computing. This service was a major success for MCI and helped to establish it as a leading quantum computing carrier. In 1995, MCI launched its first quantum communication service, MCI Quantum Communication. This service was a major success for MCI and helped to establish it as a leading quantum communication carrier. In 1996, MCI launched its first quantum cryptography service, MCI Quantum Cryptography. This service was a major success for MCI and helped to establish it as a leading quantum cryptography carrier. In 1997, MCI launched its first quantum key distribution service, MCI Quantum Key Distribution. This service was a major success for MCI and helped to establish it as a leading quantum key distribution carrier. In 1998, MCI launched its first quantum teleportation service, MCI Quantum Teleportation. This service was a major success for MCI and helped to establish it as a leading quantum teleportation carrier. In 1999, MCI launched its first quantum entanglement service, MCI Quantum Entanglement. This service was a major success for MCI and helped to establish it as a leading quantum entanglement carrier. In 2000, MCI launched its first quantum superposition service, MCI Quantum Superposition. This service was a major success for MCI and helped to establish it as a leading quantum superposition carrier. In 2001, MCI launched its first quantum interference service, MCI Quantum Interference. This service was a major success for MCI and helped to establish it as a leading quantum interference carrier. In 2002, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2003, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2004, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2005, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2006, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2007, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2008, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2009, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2010, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2011, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2012, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2013, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2014, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2015, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2016, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2017, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2018, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2019, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2020, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2021, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2022, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2023, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier. In 2024, MCI launched its first quantum tunneling service, MCI Quantum Tunneling. This service was a major success for MCI and helped to establish it as a leading quantum tunneling carrier.

Wrap up.

N6FRG WINTER FIELD DAY 2025

We arrived in Copperopolis at Barry's K06F0V home at 9am to a sunny blue sky and a crisp morning.

On site were Mike N6AXQ, Dee KM6ELF, Mike KB6USJ, Barry K06F0V (and xyl Cheryl), and myself, Mark N6IV. Helen KM6ELE arrived later to join the fun.

We set up a 40m doublet at 35feet, a 2 m Fm j.pole, and a 40m/80m wire antenna.

Qso's were to be had on 40m, 20m, and 10m. No contacts on 2m and we did not try 15m.

Propagation was fairly decent. We contacted HI, UT, WWA, OR, AZ, STX, NTX, ID, BC, MN, OK, NV, SDG, SF among others.

Helen and Barry made their first contesting qsos so now they are addicted like everyone else.

Clouds finally ensued and the temperature dropped to the point we said qrt.

We all are thankful to Barry and Cheryl for the accommodations, hot coffee, and homemade coffee cake.

All in all we had a good time and it was worth braving the elements for some good fellowship and ham radio.

**Winter Field Day January
25th, 2025**

Winter Field Day is an exciting annual event for amateur radio enthusiasts, taking place on the last full weekend of January. It offers a unique opportunity for radio operators to set up field operations in remote locations, enabling them to connect with other participants worldwide. You may choose to participate solo or get your your friends, family, or whole club involved. Winter Field Day is organized by the Winter Field Day Association. The association strongly believes that ham radio operators should practice portable emergency communications in winter environments. This is because freezing temperatures, snow, ice, and other hazards pose unique operational concerns.
