A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

The Last Decade of Windows

Over the course of 10 years, I have been able to identify only three books that discuss the use of Windows in a general way. The first is the book by the author of this column, *Windows: The Last Decade of Windows*, published by the author in 1990. The second is the book by the author of this column, *Windows: The Last Decade of Windows*, published by the author in 1990. The third is the book by the author of this column, *Windows: The Last Decade of Windows*, published by the author in 1990.
