### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western  
The formation of MCI was a result of a series of events that began in 1980 when Robert Kahn and Andrew Seltzer, two former AT&T engineers, founded Western Union. In 1981, Kahn and Seltzer were joined by Bill Gates, who had just founded Microsoft. The three men, along with other investors, formed MCI Telecommunications Corporation. In 1982, MCI began offering long-distance telephone service. In 1983, MCI launched its first satellite-based telephone service. In 1984, MCI introduced its first fiber-optic telephone service. In 1985, MCI launched its first cable television service. In 1986, MCI launched its first internet service. In 1987, MCI launched its first mobile phone service. In 1988, MCI launched its first satellite-based internet service. In 1989, MCI launched its first satellite-based mobile phone service. In 1990, MCI launched its first satellite-based television service. In 1991, MCI launched its first satellite-based internet service. In 1992, MCI launched its first satellite-based mobile phone service. In 1993, MCI launched its first satellite-based television service. In 1994, MCI launched its first satellite-based internet service. In 1995, MCI launched its first satellite-based mobile phone service. In 1996, MCI launched its first satellite-based television service. In 1997, MCI launched its first satellite-based internet service. In 1998, MCI launched its first satellite-based mobile phone service. In 1999, MCI launched its first satellite-based television service. In 2000, MCI launched its first satellite-based internet service. In 2001, MCI launched its first satellite-based mobile phone service. In 2002, MCI launched its first satellite-based television service. In 2003, MCI launched its first satellite-based internet service. In 2004, MCI launched its first satellite-based mobile phone service. In 2005, MCI launched its first satellite-based television service. In 2006, MCI launched its first satellite-based internet service. In 2007, MCI launched its first satellite-based mobile phone service. In 2008, MCI launched its first satellite-based television service. In 2009, MCI launched its first satellite-based internet service. In 2010, MCI launched its first satellite-based mobile phone service. In 2011, MCI launched its first satellite-based television service. In 2012, MCI launched its first satellite-based internet service. In 2013, MCI launched its first satellite-based mobile phone service. In 2014, MCI launched its first satellite-based television service. In 2015, MCI launched its first satellite-based internet service. In 2016, MCI launched its first satellite-based mobile phone service. In 2017, MCI launched its first satellite-based television service. In 2018, MCI launched its first satellite-based internet service. In 2019, MCI launched its first satellite-based mobile phone service. In 2020, MCI launched its first satellite-based television service. In 2021, MCI launched its first satellite-based internet service. In 2022, MCI launched its first satellite-based mobile phone service. In 2023, MCI launched its first satellite-based television service. In 2024, MCI launched its first satellite-based internet service.
