### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western  
The formation of MCI was a result of a series of events that began in 1980 when Robert E. Kahn, a former AT&T executive, and a group of investors formed Western Union. Kahn was a pioneer in the field of packet switching and had been working on a project called the Defense Communications System (DCS) for the Department of Defense. In 1981, Kahn and his partners formed Western Union. The company was initially a holding company for Kahn's other companies, including Western Union. In 1982, Kahn and his partners sold their shares in Western Union to AT&T. In 1983, Kahn and his partners formed MCI Telecommunications Corporation. MCI was initially a holding company for Kahn's other companies, including MCI Telecommunications. In 1984, MCI was listed on the New York Stock Exchange. In 1985, MCI was acquired by AT&T.
