### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

**The Last Decade of Western**  
The formation of MCI was a result of a number of factors. In 1981, the Federal Communications Commission (FCC) approved a plan for the creation of a new long-distance carrier, Western Union Communications, Inc. (WU). In 1982, WU was purchased by the American Telephone and Telegraph Company (AT&T). In 1983, AT&T was forced to divest itself of its long-distance operations. In 1984, WU was reorganized as Western Union Communications, Inc. In 1985, Western Union Communications, Inc. was reorganized as MCI Telecommunications Corporation.
