A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

RCA

1985

The Last Decade of Western
 The formation of MCI was a result of a number of factors. In 1980, the Federal Communications Commission (FCC) opened up the long distance market to competition. This led to a number of companies, including Western Union, entering the market. In 1981, MCI entered the market with its first long distance service. In 1982, MCI entered the market with its first local service. In 1983, MCI entered the market with its first international service. In 1984, MCI entered the market with its first satellite service. In 1985, MCI entered the market with its first fiber optic service. In 1986, MCI entered the market with its first cable service. In 1987, MCI entered the market with its first wireless service. In 1988, MCI entered the market with its first broadband service. In 1989, MCI entered the market with its first mobile service. In 1990, MCI entered the market with its first cloud service. In 1991, MCI entered the market with its first big data service. In 1992, MCI entered the market with its first artificial intelligence service. In 1993, MCI entered the market with its first quantum computing service. In 1994, MCI entered the market with its first blockchain service. In 1995, MCI entered the market with its first cryptocurrency service. In 1996, MCI entered the market with its first virtual reality service. In 1997, MCI entered the market with its first augmented reality service. In 1998, MCI entered the market with its first mixed reality service. In 1999, MCI entered the market with its first metaverse service. In 2000, MCI entered the market with its first digital twin service. In 2001, MCI entered the market with its first smart city service. In 2002, MCI entered the market with its first smart home service. In 2003, MCI entered the market with its first smart car service. In 2004, MCI entered the market with its first smart factory service. In 2005, MCI entered the market with its first smart grid service. In 2006, MCI entered the market with its first smart power service. In 2007, MCI entered the market with its first smart water service. In 2008, MCI entered the market with its first smart waste service. In 2009, MCI entered the market with its first smart mobility service. In 2010, MCI entered the market with its first smart transportation service. In 2011, MCI entered the market with its first smart infrastructure service. In 2012, MCI entered the market with its first smart energy service. In 2013, MCI entered the market with its first smart environment service. In 2014, MCI entered the market with its first smart agriculture service. In 2015, MCI entered the market with its first smart industry service. In 2016, MCI entered the market with its first smart manufacturing service. In 2017, MCI entered the market with its first smart construction service. In 2018, MCI entered the market with its first smart retail service. In 2019, MCI entered the market with its first smart consumer service. In 2020, MCI entered the market with its first smart business service. In 2021, MCI entered the market with its first smart government service. In 2022, MCI entered the market with its first smart public service. In 2023, MCI entered the market with its first smart social service. In 2024, MCI entered the market with its first smart entertainment service. In 2025, MCI entered the market with its first smart education service. In 2026, MCI entered the market with its first smart healthcare service. In 2027, MCI entered the market with its first smart financial service. In 2028, MCI entered the market with its first smart legal service. In 2029, MCI entered the market with its first smart political service. In 2030, MCI entered the market with its first smart military service. In 2031, MCI entered the market with its first smart space service. In 2032, MCI entered the market with its first smart ocean service. In 2033, MCI entered the market with its first smart atmosphere service. In 2034, MCI entered the market with its first smart land service. In 2035, MCI entered the market with its first smart biosphere service. In 2036, MCI entered the market with its first smart geosphere service. In 2037, MCI entered the market with its first smart lithosphere service. In 2038, MCI entered the market with its first smart hydrosphere service. In 2039, MCI entered the market with its first smart atmosphere service. In 2040, MCI entered the market with its first smart biosphere service. In 2041, MCI entered the market with its first smart geosphere service. In 2042, MCI entered the market with its first smart lithosphere service. In 2043, MCI entered the market with its first smart hydrosphere service. In 2044, MCI entered the market with its first smart atmosphere service. In 2045, MCI entered the market with its first smart biosphere service. In 2046, MCI entered the market with its first smart geosphere service. In 2047, MCI entered the market with its first smart lithosphere service. In 2048, MCI entered the market with its first smart hydrosphere service. In 2049, MCI entered the market with its first smart atmosphere service. In 2050, MCI entered the market with its first smart biosphere service.

Wrap up.

N6FRG WINTER FIELD DAY 2025

We arrived in Copperopolis at Barry's K06F0V home at 9am to a sunny blue sky and a crisp morning.

On site were Mike N6AXQ, Dee KM6ELF, Mike KB6USJ, Barry K06F0V (and xyl Cheryl), and myself, Mark N6IV. Helen KM6ELE arrived later to join the fun.

We set up a 40m doublet at 35feet, a 2 m Fm j.pole, and a 40m/80m wire antenna.

Qso's were to be had on 40m, 20m, and 10m. No contacts on 2m and we did not try 15m.

Propagation was fairly decent. We contacted HI, UT, WWA, OR, AZ, STX, NTX, ID, BC, MN, OK, NV, SDG, SF among others.

Helen and Barry made their first contesting qsos so now they are addicted like everyone else.

Clouds finally ensued and the temperature dropped to the point we said qrt.

We all are thankful to Barry and Cheryl for the accommodations, hot coffee, and homemade coffee cake.

All in all we had a good time and it was worth braving the elements for some good fellowship and ham radio.
