A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The formation of MCI is described in the following order:
1. In 1980, MCI was founded by Robert E. Kahn, a former AT&T executive,
and a group of investors. The company's initial focus was on
providing long-distance telephone service.
2. In 1981, MCI launched its first long-distance service.
3. In 1982, MCI expanded its services to include international
long-distance telephone service.
4. In 1983, MCI introduced its first satellite-based
long-distance telephone service.
5. In 1984, MCI launched its first satellite-based
television service.
6. In 1985, MCI launched its first satellite-based
data service.
