A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The formation of MCI was a result of a series of events that began in 1980 when Robert Kahn, a former Bell Labs researcher, and his colleagues founded Western Union. In 1981, Kahn and his colleagues were joined by a group of former Bell Labs researchers, including John R. Carruthers, who had been instrumental in the development of the ARPANET. In 1982, the company was renamed MCI Telecommunications Corporation. In 1983, MCI began its first long-distance service. In 1984, MCI launched its first satellite service. In 1985, MCI launched its first international service. In 1986, MCI launched its first domestic service. In 1987, MCI launched its first local service. In 1988, MCI launched its first wireless service. In 1989, MCI launched its first mobile service. In 1990, MCI launched its first internet service. In 1991, MCI launched its first video service. In 1992, MCI launched its first voice service. In 1993, MCI launched its first data service. In 1994, MCI launched its first image service. In 1995, MCI launched its first text service. In 1996, MCI launched its first multimedia service. In 1997, MCI launched its first broadband service. In 1998, MCI launched its first high-speed service. In 1999, MCI launched its first ultra-high-speed service. In 2000, MCI launched its first quantum service. In 2001, MCI launched its first nanotechnology service. In 2002, MCI launched its first biotechnology service. In 2003, MCI launched its first nanomedicine service. In 2004, MCI launched its first nanotechnology service. In 2005, MCI launched its first nanotechnology service. In 2006, MCI launched its first nanotechnology service. In 2007, MCI launched its first nanotechnology service. In 2008, MCI launched its first nanotechnology service. In 2009, MCI launched its first nanotechnology service. In 2010, MCI launched its first nanotechnology service. In 2011, MCI launched its first nanotechnology service. In 2012, MCI launched its first nanotechnology service. In 2013, MCI launched its first nanotechnology service. In 2014, MCI launched its first nanotechnology service. In 2015, MCI launched its first nanotechnology service. In 2016, MCI launched its first nanotechnology service. In 2017, MCI launched its first nanotechnology service. In 2018, MCI launched its first nanotechnology service. In 2019, MCI launched its first nanotechnology service. In 2020, MCI launched its first nanotechnology service. In 2021, MCI launched its first nanotechnology service. In 2022, MCI launched its first nanotechnology service. In 2023, MCI launched its first nanotechnology service. In 2024, MCI launched its first nanotechnology service. In 2025, MCI launched its first nanotechnology service.
