A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
 The formation of MCI is described chronologically after World War II's end. RCA, AT&T, and Western Union were the major players in the telecommunications industry at the time.

December 11, 1960
 AT&T acquires Western Union's long distance service.

May 1968
 AT&T and MCI are established as joint venture companies to provide long distance service.

July 1971
 MCI acquires Western Union's long distance service.

1981
 MCI acquires Western Union's long distance service.

June 28, 1985
 The Federal Reserve Board approves MCI's acquisition of Western Union's long distance service.
