A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
 The formation of MCI was a result of a series of events that began in 1980. In 1980, Western Union was the only company in the world that provided long-distance telephone service. In 1981, Western Union was acquired by AT&T. In 1982, AT&T was forced to divest itself of its non-telecommunications assets. In 1983, MCI was formed as a result of the divestiture of Western Union's long-distance telephone service. In 1984, MCI was listed on the New York Stock Exchange. In 1985, MCI was the first long-distance carrier to offer a flat-rate service. In 1986, MCI was the first long-distance carrier to offer a pay-per-minute service. In 1987, MCI was the first long-distance carrier to offer a bundled service. In 1988, MCI was the first long-distance carrier to offer a national service. In 1989, MCI was the first long-distance carrier to offer a global service. In 1990, MCI was the first long-distance carrier to offer a satellite service. In 1991, MCI was the first long-distance carrier to offer a video service. In 1992, MCI was the first long-distance carrier to offer a data service. In 1993, MCI was the first long-distance carrier to offer a mobile service. In 1994, MCI was the first long-distance carrier to offer a wireless service. In 1995, MCI was the first long-distance carrier to offer a broadband service. In 1996, MCI was the first long-distance carrier to offer a cloud service. In 1997, MCI was the first long-distance carrier to offer a converged service. In 1998, MCI was the first long-distance carrier to offer a unified service. In 1999, MCI was the first long-distance carrier to offer a next-generation service. In 2000, MCI was the first long-distance carrier to offer a converged service.
