### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

**The Last Decade of Western**  
 The formation of MCI was directly related to the  
 bankruptcy of RCA. RCA had been a major player in  
 the telecommunications industry for many years.  
 In 1985, RCA was forced to sell off its assets, including  
 its telecommunications division. This division was  
 sold to a group of investors, including MCI, which  
 was then formed. MCI's success was largely due to  
 its focus on providing long-distance services, which  
 were becoming increasingly important as the  
 telecommunications industry grew.
