A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

RCA

1985

The Last Decade of Western
The formation of MCI was a result of a series of events that began in 1980 when Robert E. Kahn, a former AT&T executive, was recruited to lead a group of investors to form a new company. Kahn's vision was to create a national long-distance carrier that would compete with Western Union and Bell Atlantic. The company was named MCI Telecommunications Corporation. In 1985, MCI was listed on the New York Stock Exchange. The company's first major success was the launch of the MCI Mail service in 1983, which provided a fast and reliable way to send mail. MCI also launched the MCI Mailnet service in 1985, which provided a fast and reliable way to send electronic mail. MCI's success in the 1980s was a result of its innovative approach to business and its commitment to customer service.
