### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

**The Last Decade of Western**  
The formation of MCI was directly related to the fact that the last decade of the century is a time of rapid change. Western Union, which was founded in 1851, is a company that has survived through the years by being able to adapt to the changing needs of its customers. In 1985, Western Union was acquired by MCI, and the company was reorganized to focus on its core business of providing communication services. This was a significant step in the company's history, as it marked the end of an era and the beginning of a new chapter. The acquisition was a result of MCI's growing interest in the telecommunications industry, and it was a move that was widely expected. The fact that Western Union was able to survive for so long is a testament to its resilience and adaptability. The acquisition by MCI was a natural progression for both companies, and it was a move that was in the best interests of all parties involved. The new organization was formed in 1985, and it has since become a major player in the telecommunications industry. The acquisition was a landmark event in the history of both companies, and it was a move that was widely praised. The new organization was able to combine the strengths of both companies, and it was able to provide a wide range of services to its customers. The acquisition was a success, and it was a move that was in the best interests of all parties involved.

## WFD 2025

Provided by Mark Godbout N6IV

Wrap up.

N6FRG WINTER FIELD DAY 2025

We arrived in Copperopolis at Barry's K06F0V home at 9am to a sunny blue sky and a crisp morning.

On site were Mike N6AXQ, Dee KM6ELF, Mike KB6USJ, Barry K06F0V (and xyl Cheryl), and myself, Mark N6IV. Helen KM6ELE arrived later to join the fun.

We set up a 40m doublet at 35feet, a 2 m Fm j.pole, and a 40m/80m wire antenna.

Qso's were to be had on 40m, 20m, and 10m. No contacts on 2m and we did not try 15m.

Propagation was fairly decent. We contacted HI, UT, WWA, OR, AZ, STX, NTX, ID, BC, MN, OK, NV, SDG, SF among others.

Helen and Barry made their first contesting qsos so now they are addicted like everyone else.

Clouds finally ensued and the temperature dropped to the point we said qrt.

We all are thankful to Barry and Cheryl for the accommodations, hot coffee, and homemade coffee cake.

All in all we had a good time and it was worth braving the elements for some good fellowship and ham radio.
