### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

**The Last Decade of Western**  
The formation of MCI was directly related to the fact that the last decade of the century is a time of rapid change. Western Union, which was founded in 1851, is a company that has survived through the years by being first in its field. In 1985, Western Union was acquired by MCI. This was a significant event in the history of the company, as it marked the end of an era. The acquisition was a result of MCI's expansion into the telecommunications market. Western Union, which had been a major player in the industry for over a century, was now part of a larger, more diversified company. This was a major step for MCI, as it allowed the company to expand its services and reach a wider audience. The acquisition was a key factor in MCI's success in the 1980s and 1990s.
