A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The formation of MCI in 1985 is a pivotal moment in the history of the company. It marks the beginning of a new era of innovation and growth. This decade saw the company's expansion into new markets and the development of its core services. Key milestones include the launch of the first MCI satellite service in 1985, the acquisition of Western Union in 1988, and the introduction of the MCI Mail service in 1989. The company's focus on customer service and reliability became a defining characteristic of its brand.
