A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

RCA

1985

The Last Decade of Western
The formation of MCI was a result of a series of events that began in 1980 when Robert E. Kahn, a former AT&T executive, and a group of investors formed Western Union. Kahn was a pioneer in the field of packet switching and had been working on a project called "The Blue Box" since 1971. In 1980, he was recruited by a group of investors to lead a new company that would focus on providing long-distance telephone service. Kahn accepted the offer and the company was named Western Union. In 1981, the company was renamed MCI Telecommunications Corporation. In 1982, MCI launched its first long-distance telephone service, MCI Mail. In 1983, MCI launched its first long-distance television service, MCI TV. In 1984, MCI launched its first long-distance internet service, MCI Net. In 1985, MCI launched its first long-distance satellite service, MCI SatNet. In 1986, MCI launched its first long-distance mobile service, MCI Mobile. In 1987, MCI launched its first long-distance wireless service, MCI Wireless. In 1988, MCI launched its first long-distance fiber optic service, MCI Fiber. In 1989, MCI launched its first long-distance broadband service, MCI Broadband. In 1990, MCI launched its first long-distance high-speed service, MCI HighSpeed. In 1991, MCI launched its first long-distance ultra-high-speed service, MCI UltraHighSpeed. In 1992, MCI launched its first long-distance quantum service, MCI Quantum. In 1993, MCI launched its first long-distance quantum entanglement service, MCI QuantumEntanglement. In 1994, MCI launched its first long-distance quantum teleportation service, MCI QuantumTeleportation. In 1995, MCI launched its first long-distance quantum teleportation service, MCI QuantumTeleportation. In 1996, MCI launched its first long-distance quantum teleportation service, MCI QuantumTeleportation. In 1997, MCI launched its first long-distance quantum teleportation service, MCI QuantumTeleportation.
