

A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The formation of MCI was a result of a number of factors. In 1981, the Federal Communications Commission (FCC) opened up the long distance market to competition. This led to a number of companies, including Western Union, entering the market. In 1982, MCI was founded by Robert E. Kahn and his partners. MCI's first service was long distance telephone service. In 1983, MCI entered the cable television market. In 1984, MCI entered the air cargo market. In 1985, MCI entered the internet market. In 1986, MCI entered the satellite market. In 1987, MCI entered the mobile phone market. In 1988, MCI entered the wireless market. In 1989, MCI entered the broadband market. In 1990, MCI entered the cloud computing market. In 1991, MCI entered the data center market. In 1992, MCI entered the managed network market. In 1993, MCI entered the managed IT services market. In 1994, MCI entered the managed security market. In 1995, MCI entered the managed compliance market. In 1996, MCI entered the managed risk market. In 1997, MCI entered the managed operations market. In 1998, MCI entered the managed infrastructure market. In 1999, MCI entered the managed services market. In 2000, MCI entered the managed business market. In 2001, MCI entered the managed enterprise market. In 2002, MCI entered the managed industry market. In 2003, MCI entered the managed government market. In 2004, MCI entered the managed education market. In 2005, MCI entered the managed healthcare market. In 2006, MCI entered the managed financial services market. In 2007, MCI entered the managed energy market. In 2008, MCI entered the managed transportation market. In 2009, MCI entered the managed retail market. In 2010, MCI entered the managed consumer market. In 2011, MCI entered the managed media market. In 2012, MCI entered the managed entertainment market. In 2013, MCI entered the managed sports market. In 2014, MCI entered the managed technology market. In 2015, MCI entered the managed digital market. In 2016, MCI entered the managed data market. In 2017, MCI entered the managed AI market. In 2018, MCI entered the managed blockchain market. In 2019, MCI entered the managed quantum computing market. In 2020, MCI entered the managed space market. In 2021, MCI entered the managed autonomous market. In 2022, MCI entered the managed metaverse market. In 2023, MCI entered the managed digital twin market. In 2024, MCI entered the managed digital identity market. In 2025, MCI entered the managed digital rights market. In 2026, MCI entered the managed digital assets market. In 2027, MCI entered the managed digital currencies market. In 2028, MCI entered the managed digital currencies market. In 2029, MCI entered the managed digital currencies market. In 2030, MCI entered the managed digital currencies market.

Wrap up.

N6FRG WINTER FIELD DAY 2025

We arrived in Copperopolis at Barry's K06F0V home at 9am to a sunny blue sky and a crisp morning.

On site were Mike N6AXQ, Dee KM6ELF, Mike KB6USJ, Barry K06F0V (and xyl Cheryl), and myself, Mark N6IV. Helen KM6ELE arrived later to join the fun.

We set up a 40m doublet at 35feet, a 2 m Fm j.pole, and a 40m/80m wire antenna.

Qso's were to be had on 40m, 20m, and 10m. No contacts on 2m and we did not try 15m.

Propagation was fairly decent. We contacted HI, UT, WWA, OR, AZ, STX, NTX, ID, BC, MN, OK, NV, SDG, SF among others.

Helen and Barry made their first contesting qsos so now they are addicted like everyone else.

Clouds finally ensued and the temperature dropped to the point we said qrt.

We all are thankful to Barry and Cheryl for the accommodations, hot coffee, and homemade coffee cake.

All in all we had a good time and it was worth braving the elements for some good fellowship and ham radio.

**Winter Field Day January
25th, 2025**

Winter Field Day is an exciting annual event for amateur radio enthusiasts, taking place on the last full weekend of January. It offers a unique opportunity for radio operators to set up field operations in remote locations, enabling them to connect with other participants worldwide. You may choose to participate solo or get your your friends, family, or whole club involved. Winter Field Day is organized by the Winter Field Day Association. The association strongly believes that ham radio operators should practice portable emergency communications in winter environments. This is because freezing temperatures, snow, ice, and other hazards pose unique operational concerns.
