A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The formation of MCI was a result of a series of events that began in 1980 when Robert E. Kahn, a former Bell Labs researcher, and John T. Dunlop, a former AT&T executive, founded Western Union. Kahn and Dunlop were both interested in developing a new communication system that would be more efficient and reliable than the existing Bell System. In 1981, Kahn and Dunlop were joined by a third partner, Thomas A. Love, a former AT&T executive who had been working on a project to develop a new communication system. The three partners formed Western Union, which was then acquired by MCI in 1985. MCI then merged with Western Union to form MCI Telecommunications Corporation.
