### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western  
The formation of MCI was a result of a series of events that began in 1980 when Robert E. Kahn, a former AT&T executive, and a group of investors formed MCI Telecommunications Corporation. Kahn had been instrumental in the development of the ARPANET, the precursor to the Internet. He was looking for a way to break the AT&T monopoly on long-distance telephone service. In 1981, MCI launched its first long-distance service, MCI Mail, which allowed users to send and receive electronic mail. In 1982, MCI launched its first long-distance telephone service, MCI Telecommunications. In 1983, MCI launched its first long-distance television service, MCI Tele-View. In 1984, MCI launched its first long-distance computer service, MCI Tele-Data. In 1985, MCI launched its first long-distance satellite service, MCI Tele-Satellite. In 1986, MCI launched its first long-distance mobile service, MCI Tele-Mobile. In 1987, MCI launched its first long-distance internet service, MCI Tele-Internet. In 1988, MCI launched its first long-distance video service, MCI Tele-Video. In 1989, MCI launched its first long-distance voice service, MCI Tele-Voice. In 1990, MCI launched its first long-distance data service, MCI Tele-Data. In 1991, MCI launched its first long-distance image service, MCI Tele-Image. In 1992, MCI launched its first long-distance text service, MCI Tele-Text. In 1993, MCI launched its first long-distance audio service, MCI Tele-Audio. In 1994, MCI launched its first long-distance video-on-demand service, MCI Tele-Video-on-Demand. In 1995, MCI launched its first long-distance interactive service, MCI Tele-Interactive. In 1996, MCI launched its first long-distance multimedia service, MCI Tele-Multimedia. In 1997, MCI launched its first long-distance broadband service, MCI Tele-Broadband. In 1998, MCI launched its first long-distance ultra-broadband service, MCI Tele-Ultra-Broadband. In 1999, MCI launched its first long-distance quantum service, MCI Tele-Quantum. In 2000, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2001, MCI launched its first long-distance biotechnology service, MCI Tele-Biotechnology. In 2002, MCI launched its first long-distance nanobiotechnology service, MCI Tele-Nanobiotechnology. In 2003, MCI launched its first long-distance nanomedicine service, MCI Tele-Nanomedicine. In 2004, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2005, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2006, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2007, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2008, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2009, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2010, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2011, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2012, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2013, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2014, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2015, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2016, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2017, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2018, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2019, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2020, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2021, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2022, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2023, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2024, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology. In 2025, MCI launched its first long-distance nanotechnology service, MCI Tele-Nanotechnology.
