A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The history of RCA is a story of innovation and achievement. In 1985, RCA celebrated its 50th anniversary. This year marked a significant milestone in the company's history, as it was the year that RCA was acquired by GE. This acquisition marked the end of an era for RCA, as it was the last year that RCA operated as an independent company. The acquisition was a major event in the history of the telecommunications industry, and it marked the beginning of a new chapter for RCA as a part of GE.
