A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

RCA

1985

The Last Decade of Western
 The formation of MCI was a result of a number of factors. In 1981, the Federal Communications Commission (FCC) opened the airwaves to private ownership and competition for the first time. This led to the formation of MCI by Robert Kahn and his partners in 1982. MCI was the first long distance carrier to offer service to all states, and it was the first to offer service to all major cities. MCI was also the first to offer service to all major cities. MCI was also the first to offer service to all major cities.
