A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Wireless
The history of RCA is closely intertwined with the history of the American radio industry. RCA's early success in the development of the vacuum tube and the radio receiver and transmitter technologies is a testament to the company's innovation and leadership in the field.
December 11, 1949
RCA's acquisition of the assets of the General Electric Company (GE) marked a significant milestone in the company's history. This acquisition brought together two of the leading manufacturers of electronic equipment in the United States, creating a powerful force in the development of new technologies.
May 1950
RCA's acquisition of the assets of the General Electric Company (GE) marked a significant milestone in the company's history. This acquisition brought together two of the leading manufacturers of electronic equipment in the United States, creating a powerful force in the development of new technologies.
