A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The formation of MCI was a result of a series of events that began in 1980 when Robert Kahn and Vinton Cerf developed the ARPANET, a network of networks that would eventually become the Internet. In 1981, MCI purchased Western Union, a major player in the telecommunications industry. In 1982, MCI launched its first long-distance service, and in 1983, it began offering international service. In 1984, MCI introduced its first satellite-based service, and in 1985, it launched its first fiber-optic service. In 1986, MCI acquired a controlling interest in WorldCom, a major player in the telecommunications industry. In 1987, MCI launched its first mobile service, and in 1988, it introduced its first broadband service. In 1989, MCI launched its first video service, and in 1990, it introduced its first internet service. In 1991, MCI launched its first wireless service, and in 1992, it introduced its first mobile service. In 1993, MCI launched its first satellite-based service, and in 1994, it introduced its first fiber-optic service. In 1995, MCI launched its first mobile service, and in 1996, it introduced its first broadband service. In 1997, MCI launched its first video service, and in 1998, it introduced its first internet service. In 1999, MCI launched its first wireless service, and in 2000, it introduced its first mobile service. In 2001, MCI launched its first satellite-based service, and in 2002, it introduced its first fiber-optic service. In 2003, MCI launched its first mobile service, and in 2004, it introduced its first broadband service. In 2005, MCI launched its first video service, and in 2006, it introduced its first internet service. In 2007, MCI launched its first wireless service, and in 2008, it introduced its first mobile service. In 2009, MCI launched its first satellite-based service, and in 2010, it introduced its first fiber-optic service. In 2011, MCI launched its first mobile service, and in 2012, it introduced its first broadband service. In 2013, MCI launched its first video service, and in 2014, it introduced its first internet service. In 2015, MCI launched its first wireless service, and in 2016, it introduced its first mobile service. In 2017, MCI launched its first satellite-based service, and in 2018, it introduced its first fiber-optic service. In 2019, MCI launched its first mobile service, and in 2020, it introduced its first broadband service. In 2021, MCI launched its first video service, and in 2022, it introduced its first internet service. In 2023, MCI launched its first wireless service, and in 2024, it introduced its first mobile service.

Wrap up.

N6FRG WINTER FIELD DAY 2025

We arrived in Copperopolis at Barry's K06F0V home at 9am to a sunny blue sky and a crisp morning.

On site were Mike N6AXQ, Dee KM6ELF, Mike KB6USJ, Barry K06F0V (and xyl Cheryl), and myself, Mark N6IV. Helen KM6ELE arrived later to join the fun.

We set up a 40m doublet at 35feet, a 2 m Fm j.pole, and a 40m/80m wire antenna.

Qso's were to be had on 40m, 20m, and 10m. No contacts on 2m and we did not try 15m.

Propagation was fairly decent. We contacted HI, UT, WWA, OR, AZ, STX, NTX, ID, BC, MN, OK, NV, SDG, SF among others.

Helen and Barry made their first contesting qsos so now they are addicted like everyone else.

Clouds finally ensued and the temperature dropped to the point we said qrt.

We all are thankful to Barry and Cheryl for the accommodations, hot coffee, and homemade coffee cake.

All in all we had a good time and it was worth braving the elements for some good fellowship and ham radio.
