A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The formation of MCI was a result of a series of events that began in 1980 when Robert E. Kahn, a former AT&T executive, and a group of investors formed Western Union Worldnet. Kahn's vision was to create a global network of fiber-optic cables that would bypass the traditional telephone system. In 1981, Western Union Worldnet was renamed MCI Telecommunications Corporation. In 1982, MCI launched its first long-distance service, MCI Mail, a computer-based mail system. In 1983, MCI launched its first international service, MCI Worldnet. In 1984, MCI launched its first satellite service, MCI Satnet. In 1985, MCI launched its first cable service, MCI Cablevision. In 1986, MCI launched its first mobile service, MCI Mobile. In 1987, MCI launched its first wireless service, MCI Wireless. In 1988, MCI launched its first internet service, MCI Internet. In 1989, MCI launched its first broadband service, MCI Broadband. In 1990, MCI launched its first high-speed service, MCI High-Speed. In 1991, MCI launched its first ultra-high-speed service, MCI Ultra-High-Speed. In 1992, MCI launched its first quantum service, MCI Quantum. In 1993, MCI launched its first nanotechnology service, MCI Nanotechnology. In 1994, MCI launched its first biotechnology service, MCI Biotechnology. In 1995, MCI launched its first nanobiotechnology service, MCI Nanobiotechnology. In 1996, MCI launched its first nanobiotechnology service, MCI Nanobiotechnology. In 1997, MCI launched its first nanobiotechnology service, MCI Nanobiotechnology.

Wrap up.

N6FRG WINTER FIELD DAY 2025

We arrived in Copperopolis at Barry's K06F0V home at 9am to a sunny blue sky and a crisp morning.

On site were Mike N6AXQ, Dee KM6ELF, Mike KB6USJ, Barry K06F0V (and xyl Cheryl), and myself, Mark N6IV. Helen KM6ELE arrived later to join the fun.

We set up a 40m doublet at 35feet, a 2 m Fm j.pole, and a 40m/80m wire antenna.

Qso's were to be had on 40m, 20m, and 10m. No contacts on 2m and we did not try 15m.

Propagation was fairly decent. We contacted HI, UT, WWA, OR, AZ, STX, NTX, ID, BC, MN, OK, NV, SDG, SF among others.

Helen and Barry made their first contesting qsos so now they are addicted like everyone else.

Clouds finally ensued and the temperature dropped to the point we said qrt.

We all are thankful to Barry and Cheryl for the accommodations, hot coffee, and homemade coffee cake.

All in all we had a good time and it was worth braving the elements for some good fellowship and ham radio.
