A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The history of RCA is a story of innovation and leadership. In 1985, RCA was a major force in the telecommunications industry. This decade saw the company's transition from a traditional telecommunications company to a more diversified enterprise. Key milestones include the acquisition of RCA's telecommunications division by AT&T in 1984, the formation of RCA's new telecommunications division in 1985, and the company's continued commitment to research and development. RCA's focus on innovation and leadership continues to drive the company's success in the telecommunications industry.
