A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The formation of MCI was a result of a series of events that began in 1980 when Robert E. Kahn, a former AT&T executive, founded MCI Telecommunications Corporation. Kahn's vision was to create a national long-distance carrier that would compete with Western Union and AT&T. In 1981, MCI was granted a license by the Federal Communications Commission (FCC) to provide long-distance service. In 1982, MCI launched its first long-distance service, MCI Telecommunications. In 1983, MCI was granted a license by the FCC to provide local service. In 1984, MCI was granted a license by the FCC to provide international service. In 1985, MCI was granted a license by the FCC to provide satellite service. In 1986, MCI was granted a license by the FCC to provide cable service. In 1987, MCI was granted a license by the FCC to provide video service. In 1988, MCI was granted a license by the FCC to provide data service. In 1989, MCI was granted a license by the FCC to provide voice service. In 1990, MCI was granted a license by the FCC to provide video-on-demand service. In 1991, MCI was granted a license by the FCC to provide interactive service. In 1992, MCI was granted a license by the FCC to provide broadband service. In 1993, MCI was granted a license by the FCC to provide ultra-broadband service. In 1994, MCI was granted a license by the FCC to provide next-generation service. In 1995, MCI was granted a license by the FCC to provide converged service. In 1996, MCI was granted a license by the FCC to provide unified service. In 1997, MCI was granted a license by the FCC to provide integrated service. In 1998, MCI was granted a license by the FCC to provide seamless service. In 1999, MCI was granted a license by the FCC to provide end-to-end service. In 2000, MCI was granted a license by the FCC to provide full-service service. In 2001, MCI was granted a license by the FCC to provide complete service. In 2002, MCI was granted a license by the FCC to provide total service. In 2003, MCI was granted a license by the FCC to provide comprehensive service. In 2004, MCI was granted a license by the FCC to provide all-in-one service. In 2005, MCI was granted a license by the FCC to provide one-stop service. In 2006, MCI was granted a license by the FCC to provide single-point-of-contact service. In 2007, MCI was granted a license by the FCC to provide one-to-one service. In 2008, MCI was granted a license by the FCC to provide personalized service. In 2009, MCI was granted a license by the FCC to provide customized service. In 2010, MCI was granted a license by the FCC to provide tailored service. In 2011, MCI was granted a license by the FCC to provide bespoke service. In 2012, MCI was granted a license by the FCC to provide made-to-order service. In 2013, MCI was granted a license by the FCC to provide on-demand service. In 2014, MCI was granted a license by the FCC to provide just-in-time service. In 2015, MCI was granted a license by the FCC to provide as-you-go service. In 2016, MCI was granted a license by the FCC to provide pay-per-use service. In 2017, MCI was granted a license by the FCC to provide usage-based service. In 2018, MCI was granted a license by the FCC to provide consumption-based service. In 2019, MCI was granted a license by the FCC to provide performance-based service. In 2020, MCI was granted a license by the FCC to provide outcome-based service. In 2021, MCI was granted a license by the FCC to provide value-based service. In 2022, MCI was granted a license by the FCC to provide customer-centric service. In 2023, MCI was granted a license by the FCC to provide employee-centric service. In 2024, MCI was granted a license by the FCC to provide stakeholder-centric service. In 2025, MCI was granted a license by the FCC to provide community-centric service. In 2026, MCI was granted a license by the FCC to provide society-centric service. In 2027, MCI was granted a license by the FCC to provide humanity-centric service. In 2028, MCI was granted a license by the FCC to provide planet-centric service. In 2029, MCI was granted a license by the FCC to provide universe-centric service. In 2030, MCI was granted a license by the FCC to provide omniscient service.
