### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western  
The formation of MCI was a result of a series of events that began in 1980 when Robert E. Kahn, a former AT&T executive, and a group of investors decided to start a new company. Kahn had been working for AT&T for many years and had developed a vision of a new kind of long-distance service. He wanted to provide a service that was faster, more reliable, and more affordable than the service provided by AT&T. Kahn and his investors raised money and started MCI in 1981. MCI's first service was a long-distance telephone service. MCI's service was a success. It was faster and more reliable than the service provided by AT&T. MCI's service was also more affordable. MCI's success led to the formation of MCI Telecommunications Corporation in 1985. MCI Telecommunications Corporation was a public company and was listed on the New York Stock Exchange. MCI Telecommunications Corporation was a success. It was a leading provider of long-distance telephone service. MCI Telecommunications Corporation was also a leading provider of other telecommunications services. MCI Telecommunications Corporation was a success. It was a leading provider of telecommunications services. MCI Telecommunications Corporation was a success. It was a leading provider of telecommunications services.
