A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The history of RCA and its subsidiaries after World War II is a story of innovation and success. RCA's first major success was the development of the first commercial television set in 1939. This was followed by the development of the first commercial radio set in 1940. RCA's success in the television industry was due to its partnership with GE. RCA's first major success in the radio industry was the development of the first commercial radio set in 1940. This was followed by the development of the first commercial television set in 1939. RCA's success in the television industry was due to its partnership with GE. RCA's first major success in the radio industry was the development of the first commercial radio set in 1940.
