A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The formation of MCI and its subsequent acquisition of Western
Telegraph & Telegraph (WTT) in 1985, the acquisition of
Western Union in 1986, and the acquisition of
American Telephone and Telegraph (AT&T) in 1987
were all significant events in the history of
the company. The acquisition of WTT in 1985
was particularly important as it gave MCI
access to a large number of long-distance
customers. The acquisition of Western Union
in 1986 was also significant as it gave MCI
access to a large number of business
customers. The acquisition of AT&T in 1987
was the most significant of all as it gave MCI
access to a large number of long-distance
customers and a large number of business
customers.
