A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The formation of MCI was a result of a series of events that began in 1980 when Robert E. Kahn, a former AT&T executive, and a group of investors formed Western Union Worldnet. Kahn's vision was to create a global network of fiber-optic cables that would bypass the traditional AT&T monopoly. In 1981, Kahn and his partners secured a \$100 million investment from a group of investors, including the investment bank of J.P. Morgan & Co. In 1982, Kahn and his partners launched MCI Telecommunications Corporation. MCI's first major success came in 1983 when it launched its first long-distance service, MCI Mail.
