A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

RCA

1985

The Last Decade of Western
The formation of MCI and its subsequent acquisition of Western
Telegraph & Telegraph (WTT) in 1985, the acquisition of
Western Union in 1986, and the acquisition of
American Telephone & Telegraph (AT&T) in 1987, are
some of the key events in the history of MCI.
MCI's success in the telecommunications industry
is a testament to its vision and leadership.
MCI's commitment to innovation and customer service
has made it a leader in the industry.
MCI's success is a result of its focus on
technology and innovation.
MCI's success is a result of its focus on
customer service and innovation.
