### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western  
The formation of MCI was a result of a series of events that began in 1980 when Robert E. Kahn, a former AT&T executive, and a group of investors formed Western Union Worldnet, a long-distance carrier. In 1981, Kahn and his partners acquired the assets of Western Union's long-distance carrier, Western Union Worldnet, and renamed it MCI Telecommunications Corporation. In 1982, MCI began service with its first long-distance carrier, Western Union Worldnet. In 1983, MCI began service with its second long-distance carrier, Western Union Worldnet. In 1984, MCI began service with its third long-distance carrier, Western Union Worldnet. In 1985, MCI began service with its fourth long-distance carrier, Western Union Worldnet.
