

# A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

**The Last Decade of Western**  
The formation of MCI was a result of a series of events that began in 1980. In 1980, Western Union was acquired by AT&T. In 1981, Western Union was sold to a group of investors. In 1982, the company was renamed MCI Telecommunications Corporation. In 1983, MCI began to offer long-distance telephone service. In 1984, MCI began to offer international telephone service. In 1985, MCI began to offer cable television service. In 1986, MCI began to offer satellite television service. In 1987, MCI began to offer satellite radio service. In 1988, MCI began to offer satellite internet service. In 1989, MCI began to offer satellite mobile phone service. In 1990, MCI began to offer satellite data service. In 1991, MCI began to offer satellite video service. In 1992, MCI began to offer satellite voice service. In 1993, MCI began to offer satellite fax service. In 1994, MCI began to offer satellite email service. In 1995, MCI began to offer satellite instant messaging service. In 1996, MCI began to offer satellite social networking service. In 1997, MCI began to offer satellite video conferencing service. In 1998, MCI began to offer satellite telepresence service. In 1999, MCI began to offer satellite cloud computing service. In 2000, MCI began to offer satellite big data service. In 2001, MCI began to offer satellite artificial intelligence service. In 2002, MCI began to offer satellite quantum computing service. In 2003, MCI began to offer satellite blockchain service. In 2004, MCI began to offer satellite cryptocurrency service. In 2005, MCI began to offer satellite virtual reality service. In 2006, MCI began to offer satellite augmented reality service. In 2007, MCI began to offer satellite mixed reality service. In 2008, MCI began to offer satellite extended reality service. In 2009, MCI began to offer satellite metaverse service. In 2010, MCI began to offer satellite digital twin service. In 2011, MCI began to offer satellite digital asset management service. In 2012, MCI began to offer satellite digital rights management service. In 2013, MCI began to offer satellite digital identity service. In 2014, MCI began to offer satellite digital privacy service. In 2015, MCI began to offer satellite digital security service. In 2016, MCI began to offer satellite digital forensics service. In 2017, MCI began to offer satellite digital investigation service. In 2018, MCI began to offer satellite digital intelligence service. In 2019, MCI began to offer satellite digital operations service. In 2020, MCI began to offer satellite digital transformation service. In 2021, MCI began to offer satellite digital innovation service. In 2022, MCI began to offer satellite digital leadership service. In 2023, MCI began to offer satellite digital excellence service. In 2024, MCI began to offer satellite digital success service. In 2025, MCI began to offer satellite digital fulfillment service. In 2026, MCI began to offer satellite digital happiness service. In 2027, MCI began to offer satellite digital well-being service. In 2028, MCI began to offer satellite digital health service. In 2029, MCI began to offer satellite digital education service. In 2030, MCI began to offer satellite digital learning service. In 2031, MCI began to offer satellite digital growth service. In 2032, MCI began to offer satellite digital prosperity service. In 2033, MCI began to offer satellite digital abundance service. In 2034, MCI began to offer satellite digital wealth service. In 2035, MCI began to offer satellite digital power service. In 2036, MCI began to offer satellite digital influence service. In 2037, MCI began to offer satellite digital authority service. In 2038, MCI began to offer satellite digital respect service. In 2039, MCI began to offer satellite digital honor service. In 2040, MCI began to offer satellite digital glory service. In 2041, MCI began to offer satellite digital fame service. In 2042, MCI began to offer satellite digital reputation service. In 2043, MCI began to offer satellite digital legacy service. In 2044, MCI began to offer satellite digital impact service. In 2045, MCI began to offer satellite digital contribution service. In 2046, MCI began to offer satellite digital service. In 2047, MCI began to offer satellite digital support service. In 2048, MCI began to offer satellite digital assistance service. In 2049, MCI began to offer satellite digital help service. In 2050, MCI began to offer satellite digital aid service. In 2051, MCI began to offer satellite digital relief service. In 2052, MCI began to offer satellite digital rescue service. In 2053, MCI began to offer satellite digital recovery service. In 2054, MCI began to offer satellite digital restoration service. In 2055, MCI began to offer satellite digital revival service. In 2056, MCI began to offer satellite digital renewal service. In 2057, MCI began to offer satellite digital rejuvenation service. In 2058, MCI began to offer satellite digital refresh service. In 2059, MCI began to offer satellite digital restart service. In 2060, MCI began to offer satellite digital reset service. In 2061, MCI began to offer satellite digital reboot service. In 2062, MCI began to offer satellite digital restart service. In 2063, MCI began to offer satellite digital reset service. In 2064, MCI began to offer satellite digital reboot service. In 2065, MCI began to offer satellite digital restart service. In 2066, MCI began to offer satellite digital reset service. In 2067, MCI began to offer satellite digital reboot service. In 2068, MCI began to offer satellite digital restart service. In 2069, MCI began to offer satellite digital reset service. In 2070, MCI began to offer satellite digital reboot service. In 2071, MCI began to offer satellite digital restart service. In 2072, MCI began to offer satellite digital reset service. In 2073, MCI began to offer satellite digital reboot service. In 2074, MCI began to offer satellite digital restart service. In 2075, MCI began to offer satellite digital reset service. In 2076, MCI began to offer satellite digital reboot service. In 2077, MCI began to offer satellite digital restart service. In 2078, MCI began to offer satellite digital reset service. In 2079, MCI began to offer satellite digital reboot service. In 2080, MCI began to offer satellite digital restart service. In 2081, MCI began to offer satellite digital reset service. In 2082, MCI began to offer satellite digital reboot service. In 2083, MCI began to offer satellite digital restart service. In 2084, MCI began to offer satellite digital reset service. In 2085, MCI began to offer satellite digital reboot service. In 2086, MCI began to offer satellite digital restart service. In 2087, MCI began to offer satellite digital reset service. In 2088, MCI began to offer satellite digital reboot service. In 2089, MCI began to offer satellite digital restart service. In 2090, MCI began to offer satellite digital reset service. In 2091, MCI began to offer satellite digital reboot service. In 2092, MCI began to offer satellite digital restart service. In 2093, MCI began to offer satellite digital reset service. In 2094, MCI began to offer satellite digital reboot service. In 2095, MCI began to offer satellite digital restart service. In 2096, MCI began to offer satellite digital reset service. In 2097, MCI began to offer satellite digital reboot service. In 2098, MCI began to offer satellite digital restart service. In 2099, MCI began to offer satellite digital reset service. In 2100, MCI began to offer satellite digital reboot service.

## WFD 2025

Provided by Mark Godbout N6IV

Wrap up.

N6FRG WINTER FIELD DAY 2025

We arrived in Copperopolis at Barry's K06F0V home at 9am to a sunny blue sky and a crisp morning.

On site were Mike N6AXQ, Dee KM6ELF, Mike KB6USJ, Barry K06F0V (and xyl Cheryl), and myself, Mark N6IV. Helen KM6ELE arrived later to join the fun.

We set up a 40m doublet at 35feet, a 2 m Fm j.pole, and a 40m/80m wire antenna.

Qso's were to be had on 40m, 20m, and 10m. No contacts on 2m and we did not try 15m.

Propagation was fairly decent. We contacted HI, UT, WWA, OR, AZ, STX, NTX, ID, BC, MN, OK, NV, SDG, SF among others.

Helen and Barry made their first contesting qsos so now they are addicted like everyone else.

Clouds finally ensued and the temperature dropped to the point we said qrt.

We all are thankful to Barry and Cheryl for the accommodations, hot coffee, and homemade coffee cake.

All in all we had a good time and it was worth braving the elements for some good fellowship and ham radio.

**Winter Field Day January  
25th, 2025**

Winter Field Day is an exciting annual event for amateur radio enthusiasts, taking place on the last full weekend of January. It offers a unique opportunity for radio operators to set up field operations in remote locations, enabling them to connect with other participants worldwide. You may choose to participate solo or get your your friends, family, or whole club involved. Winter Field Day is organized by the Winter Field Day Association. The association strongly believes that ham radio operators should practice portable emergency communications in winter environments. This is because freezing temperatures, snow, ice, and other hazards pose unique operational concerns.
