### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

**The Last Decade of Western**  
The formation of MCI was a result of a series of events that began in 1980 when Robert G. Allen, founder of Western Union, decided to sell the company to a group of investors led by Ted Leonsis. The sale was completed in 1985, and MCI was born. This was a significant event in the history of the telecommunications industry, as it marked the end of Western Union's long history of ownership and the beginning of a new era of competition and innovation.

PURE MOUNTAIN FUN

## MECHANICAL WAVES

- Easy to understand
- Can try at home
  - rope, tension vs. motion
- Speed is reasonable
- Fun to watch
  - Shake wave machine
  - big one at MIT 26.100
