

# A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western  
The formation of MCI was a result of a series of events that began in 1980 when Robert Katz founded MCI Telecommunications Corporation. In 1985, MCI acquired Western Union, a major player in the telecommunications industry. This acquisition was a significant step in MCI's expansion and diversification. The company's growth was fueled by its innovative services and strong financial performance. By the end of the decade, MCI had established itself as a leading telecommunications provider. The acquisition of Western Union was a key factor in MCI's success, as it provided the company with a large customer base and a strong network of distribution channels. This move allowed MCI to offer a wider range of services and to compete more effectively in the market. The company's focus on customer service and innovation continued to drive its growth throughout the decade. MCI's success in the late 1980s was a testament to its leadership and vision. The company's ability to adapt to a rapidly changing market was a key to its long-term success. The acquisition of Western Union was a pivotal moment in MCI's history, one that shaped the company's future. The company's commitment to excellence and its dedication to its customers were the driving forces behind its success. MCI's story is a testament to the power of innovation and the importance of strategic acquisitions. The company's journey from a small startup to a major telecommunications provider is a remarkable one. The late 1980s were a time of great opportunity for MCI, and the company seized the moment. Its success in this period laid the foundation for its future growth and success. The acquisition of Western Union was a defining moment for MCI, one that marked the beginning of a new era for the company. The company's focus on innovation and customer service remained a constant throughout its history. MCI's success in the late 1980s was a result of its leadership, its vision, and its commitment to excellence. The company's story is a testament to the power of innovation and the importance of strategic acquisitions. The late 1980s were a time of great opportunity for MCI, and the company seized the moment. ## WFD 2025

Provided by Mark Godbout N6IV

Wrap up.

N6FRG WINTER FIELD DAY 2025

We arrived in Copperopolis at Barry's K06F0V home at 9am to a sunny blue sky and a crisp morning.

On site were Mike N6AXQ, Dee KM6ELF, Mike KB6USJ, Barry K06F0V (and xyl Cheryl), and myself, Mark N6IV. Helen KM6ELE arrived later to join the fun.

We set up a 40m doublet at 35feet, a 2 m Fm j.pole, and a 40m/80m wire antenna.

Qso's were to be had on 40m, 20m, and 10m. No contacts on 2m and we did not try 15m.

Propagation was fairly decent. We contacted HI, UT, WWA, OR, AZ, STX, NTX, ID, BC, MN, OK, NV, SDG, SF among others.

Helen and Barry made their first contesting qsos so now they are addicted like everyone else.

Clouds finally ensued and the temperature dropped to the point we said qrt.

We all are thankful to Barry and Cheryl for the accommodations, hot coffee, and homemade coffee cake.

All in all we had a good time and it was worth braving the elements for some good fellowship and ham radio.

**Winter Field Day January  
25th, 2025**

Winter Field Day is an exciting annual event for amateur radio enthusiasts, taking place on the last full weekend of January. It offers a unique opportunity for radio operators to set up field operations in remote locations, enabling them to connect with other participants worldwide. You may choose to participate solo or get your your friends, family, or whole club involved. Winter Field Day is organized by the Winter Field Day Association. The association strongly believes that ham radio operators should practice portable emergency communications in winter environments. This is because freezing temperatures, snow, ice, and other hazards pose unique operational concerns.
