A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The formation of MCI was directly related to the fact that the last decade of the century is a time of rapid change. Western Union, MCI, and other companies are being acquired or merged with other companies. This is a time of consolidation and change. The last decade of Western Union was a time of great change and growth. The company was founded in 1851 and has since become one of the largest telecommunications companies in the world. In 1985, Western Union was acquired by MCI. This was a significant event in the company's history. The acquisition was completed on December 31, 1985. The company was then renamed MCI Telecommunications Corporation. The acquisition was a major step in MCI's expansion into the telecommunications market. It was a key moment in the company's history and marked the beginning of its rise as a major player in the industry.
