A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The formation of MCI was directly related to the
bankruptcy of RCA. For the first time in its history,
a major corporation had a subsidiary that was
not profitable.
December 11, 1980
RCA announced the sale of its long distance
division.
May 1982
MCI was established as MCI Telecommunications
Company, a wholly owned subsidiary of Western
Union.
July 1982
MCI announced its first long distance
service.
June 24, 1983
The Federal Reserve Board approved MCI's
application for interstate long distance
service.
