A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The formation of MCI was directly attributable to the fact that the last decade of RCA's existence was a period of intense competition and technological change. In 1985, RCA announced the formation of MCI as a separate entity. In May 1986, MCI was officially established as a wholly owned subsidiary of Western Union International. MCI's formation coincided with Western Union's decision to focus on its core business of providing telegraph and teletype services. In 1987, MCI was able to secure a significant amount of capital from the sale of Western Union International. In 1988, MCI was able to secure a significant amount of capital from the sale of Western Union International.
