### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western  
The formation of MCI was a result of a series of events that began in 1980 when Robert E. Kahn, a former AT&T executive, and his partners founded MCI Telecommunications Corporation. Kahn had been instrumental in the development of the ARPANET, the precursor to the Internet. He was also a pioneer in the use of satellite communications. In 1981, Kahn and his partners secured a license from the Federal Communications Commission (FCC) to provide long-distance telephone service. This was a significant achievement, as it allowed MCI to compete directly with AT&T in the long-distance market. In 1982, MCI launched its first long-distance service, MCI Telecommunications Corporation. This was a major milestone for MCI, as it marked the beginning of its rise as a major player in the telecommunications industry. In 1983, MCI introduced its first satellite-based service, MCI Satellite Mail. This was a revolutionary service that allowed users to send and receive mail via satellite. In 1984, MCI introduced its first fiber-optic service, MCI Fiber Optic Network. This was another major milestone for MCI, as it marked the beginning of its expansion into the fiber-optic market. In 1985, MCI introduced its first video-on-demand service, MCI Video-on-Demand. This was a significant achievement for MCI, as it marked the beginning of its entry into the video-on-demand market. In 1986, MCI introduced its first internet service, MCI Internet Service. This was a major milestone for MCI, as it marked the beginning of its expansion into the internet market. In 1987, MCI introduced its first mobile service, MCI Mobile Service. This was another major milestone for MCI, as it marked the beginning of its entry into the mobile market. In 1988, MCI introduced its first wireless service, MCI Wireless Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the wireless market. In 1989, MCI introduced its first satellite-based service, MCI Satellite Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the satellite market. In 1990, MCI introduced its first fiber-optic service, MCI Fiber Optic Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the fiber-optic market. In 1991, MCI introduced its first video-on-demand service, MCI Video-on-Demand Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the video-on-demand market. In 1992, MCI introduced its first internet service, MCI Internet Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the internet market. In 1993, MCI introduced its first mobile service, MCI Mobile Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the mobile market. In 1994, MCI introduced its first wireless service, MCI Wireless Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the wireless market. In 1995, MCI introduced its first satellite-based service, MCI Satellite Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the satellite market. In 1996, MCI introduced its first fiber-optic service, MCI Fiber Optic Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the fiber-optic market. In 1997, MCI introduced its first video-on-demand service, MCI Video-on-Demand Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the video-on-demand market. In 1998, MCI introduced its first internet service, MCI Internet Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the internet market. In 1999, MCI introduced its first mobile service, MCI Mobile Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the mobile market. In 2000, MCI introduced its first wireless service, MCI Wireless Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the wireless market. In 2001, MCI introduced its first satellite-based service, MCI Satellite Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the satellite market. In 2002, MCI introduced its first fiber-optic service, MCI Fiber Optic Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the fiber-optic market. In 2003, MCI introduced its first video-on-demand service, MCI Video-on-Demand Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the video-on-demand market. In 2004, MCI introduced its first internet service, MCI Internet Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the internet market. In 2005, MCI introduced its first mobile service, MCI Mobile Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the mobile market. In 2006, MCI introduced its first wireless service, MCI Wireless Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the wireless market. In 2007, MCI introduced its first satellite-based service, MCI Satellite Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the satellite market. In 2008, MCI introduced its first fiber-optic service, MCI Fiber Optic Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the fiber-optic market. In 2009, MCI introduced its first video-on-demand service, MCI Video-on-Demand Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the video-on-demand market. In 2010, MCI introduced its first internet service, MCI Internet Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the internet market. In 2011, MCI introduced its first mobile service, MCI Mobile Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the mobile market. In 2012, MCI introduced its first wireless service, MCI Wireless Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the wireless market. In 2013, MCI introduced its first satellite-based service, MCI Satellite Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the satellite market. In 2014, MCI introduced its first fiber-optic service, MCI Fiber Optic Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the fiber-optic market. In 2015, MCI introduced its first video-on-demand service, MCI Video-on-Demand Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the video-on-demand market. In 2016, MCI introduced its first internet service, MCI Internet Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the internet market. In 2017, MCI introduced its first mobile service, MCI Mobile Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the mobile market. In 2018, MCI introduced its first wireless service, MCI Wireless Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the wireless market. In 2019, MCI introduced its first satellite-based service, MCI Satellite Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the satellite market. In 2020, MCI introduced its first fiber-optic service, MCI Fiber Optic Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the fiber-optic market. In 2021, MCI introduced its first video-on-demand service, MCI Video-on-Demand Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the video-on-demand market. In 2022, MCI introduced its first internet service, MCI Internet Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the internet market. In 2023, MCI introduced its first mobile service, MCI Mobile Service. This was another major milestone for MCI, as it marked the beginning of its expansion into the mobile market. In 2024, MCI introduced its first wireless service, MCI Wireless Service. This was a significant achievement for MCI, as it marked the beginning of its expansion into the wireless market.
