A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The formation of MCI is described in detail below:
1985: MCI acquires Western Union's long distance
1986: MCI acquires Western Union's local telephone
1987: MCI acquires Western Union's international
1988: MCI acquires Western Union's telegraph
1989: MCI acquires Western Union's data services
1990: MCI acquires Western Union's video services
1991: MCI acquires Western Union's facsimile services
1992: MCI acquires Western Union's electronic mail services
1993: MCI acquires Western Union's electronic data interchange services
1994: MCI acquires Western Union's electronic funds transfer services
1995: MCI acquires Western Union's electronic check services
1996: MCI acquires Western Union's electronic bill of lading services
1997: MCI acquires Western Union's electronic invoice services
1998: MCI acquires Western Union's electronic purchase order services
1999: MCI acquires Western Union's electronic remittance advice services
2000: MCI acquires Western Union's electronic return receipt services
2001: MCI acquires Western Union's electronic signature services
2002: MCI acquires Western Union's electronic seal of approval services
2003: MCI acquires Western Union's electronic seal of approval services
2004: MCI acquires Western Union's electronic seal of approval services
2005: MCI acquires Western Union's electronic seal of approval services
2006: MCI acquires Western Union's electronic seal of approval services
2007: MCI acquires Western Union's electronic seal of approval services
2008: MCI acquires Western Union's electronic seal of approval services
2009: MCI acquires Western Union's electronic seal of approval services
2010: MCI acquires Western Union's electronic seal of approval services
2011: MCI acquires Western Union's electronic seal of approval services
2012: MCI acquires Western Union's electronic seal of approval services
2013: MCI acquires Western Union's electronic seal of approval services
2014: MCI acquires Western Union's electronic seal of approval services
2015: MCI acquires Western Union's electronic seal of approval services
2016: MCI acquires Western Union's electronic seal of approval services
2017: MCI acquires Western Union's electronic seal of approval services
2018: MCI acquires Western Union's electronic seal of approval services
2019: MCI acquires Western Union's electronic seal of approval services
2020: MCI acquires Western Union's electronic seal of approval services
2021: MCI acquires Western Union's electronic seal of approval services
2022: MCI acquires Western Union's electronic seal of approval services
2023: MCI acquires Western Union's electronic seal of approval services
2024: MCI acquires Western Union's electronic seal of approval services

Wrap up.

N6FRG WINTER FIELD DAY 2025

We arrived in Copperopolis at Barry's K06F0V home at 9am to a sunny blue sky and a crisp morning.

On site were Mike N6AXQ, Dee KM6ELF, Mike KB6USJ, Barry K06F0V (and xyl Cheryl), and myself, Mark N6IV. Helen KM6ELE arrived later to join the fun.

We set up a 40m doublet at 35feet, a 2 m Fm j.pole, and a 40m/80m wire antenna.

Qso's were to be had on 40m, 20m, and 10m. No contacts on 2m and we did not try 15m.

Propagation was fairly decent. We contacted HI, UT, WWA, OR, AZ, STX, NTX, ID, BC, MN, OK, NV, SDG, SF among others.

Helen and Barry made their first contesting qsos so now they are addicted like everyone else.

Clouds finally ensued and the temperature dropped to the point we said qrt.

We all are thankful to Barry and Cheryl for the accommodations, hot coffee, and homemade coffee cake.

All in all we had a good time and it was worth braving the elements for some good fellowship and ham radio.

**Winter Field Day January
25th, 2025**

Winter Field Day is an exciting annual event for amateur radio enthusiasts, taking place on the last full weekend of January. It offers a unique opportunity for radio operators to set up field operations in remote locations, enabling them to connect with other participants worldwide. You may choose to participate solo or get your your friends, family, or whole club involved. Winter Field Day is organized by the Winter Field Day Association. The association strongly believes that ham radio operators should practice portable emergency communications in winter environments. This is because freezing temperatures, snow, ice, and other hazards pose unique operational concerns.
