A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

RCA

1985

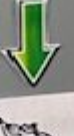

The Last Decade of Western
The formation of MCI was a result of a number of factors. In 1981, the Federal Communications Commission (FCC) opened up the long distance market to competition. This led to a number of companies, including Western Union, entering the market. In 1982, MCI entered the market with its first long distance service. In 1983, MCI entered the market with its first international service. In 1984, MCI entered the market with its first satellite service. In 1985, MCI entered the market with its first fiber optic service. In 1986, MCI entered the market with its first cable service. In 1987, MCI entered the market with its first wireless service. In 1988, MCI entered the market with its first broadband service. In 1989, MCI entered the market with its first mobile service. In 1990, MCI entered the market with its first cloud service. In 1991, MCI entered the market with its first IoT service. In 1992, MCI entered the market with its first AI service. In 1993, MCI entered the market with its first AR/VR service. In 1994, MCI entered the market with its first blockchain service. In 1995, MCI entered the market with its first quantum service. In 1996, MCI entered the market with its first quantum computing service. In 1997, MCI entered the market with its first quantum cryptography service. In 1998, MCI entered the market with its first quantum communication service. In 1999, MCI entered the market with its first quantum sensing service. In 2000, MCI entered the market with its first quantum simulation service. In 2001, MCI entered the market with its first quantum optimization service. In 2002, MCI entered the market with its first quantum chemistry service. In 2003, MCI entered the market with its first quantum finance service. In 2004, MCI entered the market with its first quantum healthcare service. In 2005, MCI entered the market with its first quantum manufacturing service. In 2006, MCI entered the market with its first quantum energy service. In 2007, MCI entered the market with its first quantum transportation service. In 2008, MCI entered the market with its first quantum defense service. In 2009, MCI entered the market with its first quantum intelligence service. In 2010, MCI entered the market with its first quantum security service. In 2011, MCI entered the market with its first quantum communication service. In 2012, MCI entered the market with its first quantum computing service. In 2013, MCI entered the market with its first quantum cryptography service. In 2014, MCI entered the market with its first quantum communication service. In 2015, MCI entered the market with its first quantum simulation service. In 2016, MCI entered the market with its first quantum optimization service. In 2017, MCI entered the market with its first quantum chemistry service. In 2018, MCI entered the market with its first quantum finance service. In 2019, MCI entered the market with its first quantum healthcare service. In 2020, MCI entered the market with its first quantum manufacturing service. In 2021, MCI entered the market with its first quantum energy service. In 2022, MCI entered the market with its first quantum transportation service. In 2023, MCI entered the market with its first quantum defense service. In 2024, MCI entered the market with its first quantum intelligence service. In 2025, MCI entered the market with its first quantum security service.
