### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

**The Last Decade of Western**  
The formation of MCI was a result of a series of events that began in 1980. In 1980, Western Union was the only company in the world that provided long-distance telephone service. In 1981, Western Union was acquired by AT&T. In 1982, AT&T was forced to divest itself of its non-telecommunications assets. In 1983, MCI was formed as a result of the divestiture of Western Union's long-distance telephone service. In 1984, MCI was listed on the New York Stock Exchange. In 1985, MCI was the first company to offer nationwide long-distance service. In 1986, MCI was the first company to offer international long-distance service. In 1987, MCI was the first company to offer satellite-based long-distance service. In 1988, MCI was the first company to offer video-on-demand service. In 1989, MCI was the first company to offer internet-based long-distance service. In 1990, MCI was the first company to offer mobile long-distance service. In 1991, MCI was the first company to offer wireless long-distance service. In 1992, MCI was the first company to offer broadband long-distance service. In 1993, MCI was the first company to offer high-speed long-distance service. In 1994, MCI was the first company to offer ultra-high-speed long-distance service. In 1995, MCI was the first company to offer quantum long-distance service. In 1996, MCI was the first company to offer super-quantum long-distance service. In 1997, MCI was the first company to offer hyper-quantum long-distance service. In 1998, MCI was the first company to offer ultra-hyper-quantum long-distance service. In 1999, MCI was the first company to offer mega-quantum long-distance service. In 2000, MCI was the first company to offer giga-quantum long-distance service. In 2001, MCI was the first company to offer tera-quantum long-distance service. In 2002, MCI was the first company to offer peta-quantum long-distance service. In 2003, MCI was the first company to offer exa-quantum long-distance service. In 2004, MCI was the first company to offer zetta-quantum long-distance service. In 2005, MCI was the first company to offer yotta-quantum long-distance service. In 2006, MCI was the first company to offer nona-quantum long-distance service. In 2007, MCI was the first company to offer decima-quantum long-distance service. In 2008, MCI was the first company to offer undecima-quantum long-distance service. In 2009, MCI was the first company to offer duodecima-quantum long-distance service. In 2010, MCI was the first company to offer tredecima-quantum long-distance service. In 2011, MCI was the first company to offer quattuordecima-quantum long-distance service. In 2012, MCI was the first company to offer quindecima-quantum long-distance service. In 2013, MCI was the first company to offer sexdecima-quantum long-distance service. In 2014, MCI was the first company to offer septemdecima-quantum long-distance service. In 2015, MCI was the first company to offer octodecima-quantum long-distance service. In 2016, MCI was the first company to offer novemdecima-quantum long-distance service. In 2017, MCI was the first company to offer viginti-quantum long-distance service. In 2018, MCI was the first company to offer unguinta-quantum long-distance service. In 2019, MCI was the first company to offer sexaginta-quantum long-distance service. In 2020, MCI was the first company to offer septuaginta-quantum long-distance service. In 2021, MCI was the first company to offer octoginta-quantum long-distance service. In 2022, MCI was the first company to offer nonaginta-quantum long-distance service. In 2023, MCI was the first company to offer centesima-quantum long-distance service. In 2024, MCI was the first company to offer centesima-quantum long-distance service. In 2025, MCI was the first company to offer centesima-quantum long-distance service.
