### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

**The Last Decade of Western**  
 The formation of MCI was a result of a number of factors, including the fact that the company was a public company and was subject to the same regulations as other public companies. In 1985, the company was acquired by GE, which was a major shareholder. This acquisition was a significant event in the company's history, as it marked the end of the company's independence and the beginning of its integration into GE's telecommunications division.

December 11, 1985  
 GE acquires Western Union, a major shareholder of MCI.

May 1986  
 GE and MCI announce plans to merge their telecommunications divisions.

June 1986  
 GE and MCI announce plans to merge their telecommunications divisions.

June 1986  
 GE and MCI announce plans to merge their telecommunications divisions.
