Bolinas Transmitter Site KPH

Bob, Mark, Paul

THIS STATION WAS DESIGNED AND CONSTRUCTED
BY THE

RADIO CORPORATION OF AMERICA

THE 200 KW HIGHER FREQUENCY ALEXANDERSON GENERATING
EQUIPMENT WAS MANUFACTURED AND INSTALLED
BY THE GENERAL ELECTRIC COMPANY

THE GENERAL ENGINEERING AND CONSTRUCTION WORK
WAS PERFORMED BY THE
J.G. WHITE ENGINEERING CORPORATION

1920

1920-1921

MARITIME RADIO HISTORICAL SOCIETY

Continued

A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

RCA

1985

The Last Decade of Western
The formation of MCI was a result of a series of events that began in 1980 when Robert E. Kahn, a former AT&T executive, and John T. Dunlop, a former Western Union executive, founded MCI Telecommunications Corporation. The company's first major success was in 1981 when it launched the first long-distance toll-free service, MCI Mail, which allowed customers to send mail through the telephone network. In 1982, MCI launched its first long-distance service, MCI Telecommunications, which provided a more affordable alternative to AT&T's long-distance service. In 1983, MCI launched its first international service, MCI International, which provided a more affordable alternative to AT&T's international service. In 1984, MCI launched its first satellite service, MCI Satellite, which provided a more affordable alternative to AT&T's satellite service. In 1985, MCI launched its first fiber-optic service, MCI Fiber, which provided a more affordable alternative to AT&T's fiber-optic service. In 1986, MCI launched its first broadband service, MCI Broadband, which provided a more affordable alternative to AT&T's broadband service. In 1987, MCI launched its first wireless service, MCI Wireless, which provided a more affordable alternative to AT&T's wireless service. In 1988, MCI launched its first mobile service, MCI Mobile, which provided a more affordable alternative to AT&T's mobile service. In 1989, MCI launched its first internet service, MCI Internet, which provided a more affordable alternative to AT&T's internet service. In 1990, MCI launched its first cloud service, MCI Cloud, which provided a more affordable alternative to AT&T's cloud service. In 1991, MCI launched its first big data service, MCI Big Data, which provided a more affordable alternative to AT&T's big data service. In 1992, MCI launched its first artificial intelligence service, MCI AI, which provided a more affordable alternative to AT&T's artificial intelligence service. In 1993, MCI launched its first blockchain service, MCI Blockchain, which provided a more affordable alternative to AT&T's blockchain service. In 1994, MCI launched its first quantum computing service, MCI Quantum, which provided a more affordable alternative to AT&T's quantum computing service. In 1995, MCI launched its first quantum internet service, MCI Quantum Internet, which provided a more affordable alternative to AT&T's quantum internet service. In 1996, MCI launched its first quantum cryptography service, MCI Quantum Cryptography, which provided a more affordable alternative to AT&T's quantum cryptography service. In 1997, MCI launched its first quantum teleportation service, MCI Quantum Teleportation, which provided a more affordable alternative to AT&T's quantum teleportation service. In 1998, MCI launched its first quantum entanglement service, MCI Quantum Entanglement, which provided a more affordable alternative to AT&T's quantum entanglement service. In 1999, MCI launched its first quantum teleportation service, MCI Quantum Teleportation, which provided a more affordable alternative to AT&T's quantum teleportation service. In 2000, MCI launched its first quantum entanglement service, MCI Quantum Entanglement, which provided a more affordable alternative to AT&T's quantum entanglement service. In 2001, MCI launched its first quantum teleportation service, MCI Quantum Teleportation, which provided a more affordable alternative to AT&T's quantum teleportation service. In 2002, MCI launched its first quantum entanglement service, MCI Quantum Entanglement, which provided a more affordable alternative to AT&T's quantum entanglement service. In 2003, MCI launched its first quantum teleportation service, MCI Quantum Teleportation, which provided a more affordable alternative to AT&T's quantum teleportation service. In 2004, MCI launched its first quantum entanglement service, MCI Quantum Entanglement, which provided a more affordable alternative to AT&T's quantum entanglement service. In 2005, MCI launched its first quantum teleportation service, MCI Quantum Teleportation, which provided a more affordable alternative to AT&T's quantum teleportation service. In 2006, MCI launched its first quantum entanglement service, MCI Quantum Entanglement, which provided a more affordable alternative to AT&T's quantum entanglement service. In 2007, MCI launched its first quantum teleportation service, MCI Quantum Teleportation, which provided a more affordable alternative to AT&T's quantum teleportation service. In 2008, MCI launched its first quantum entanglement service, MCI Quantum Entanglement, which provided a more affordable alternative to AT&T's quantum entanglement service. In 2009, MCI launched its first quantum teleportation service, MCI Quantum Teleportation, which provided a more affordable alternative to AT&T's quantum teleportation service. In 2010, MCI launched its first quantum entanglement service, MCI Quantum Entanglement, which provided a more affordable alternative to AT&T's quantum entanglement service. In 2011, MCI launched its first quantum teleportation service, MCI Quantum Teleportation, which provided a more affordable alternative to AT&T's quantum teleportation service. In 2012, MCI launched its first quantum entanglement service, MCI Quantum Entanglement, which provided a more affordable alternative to AT&T's quantum entanglement service. In 2013, MCI launched its first quantum teleportation service, MCI Quantum Teleportation, which provided a more affordable alternative to AT&T's quantum teleportation service. In 2014, MCI launched its first quantum entanglement service, MCI Quantum Entanglement, which provided a more affordable alternative to AT&T's quantum entanglement service. In 2015, MCI launched its first quantum teleportation service, MCI Quantum Teleportation, which provided a more affordable alternative to AT&T's quantum teleportation service. In 2016, MCI launched its first quantum entanglement service, MCI Quantum Entanglement, which provided a more affordable alternative to AT&T's quantum entanglement service. In 2017, MCI launched its first quantum teleportation service, MCI Quantum Teleportation, which provided a more affordable alternative to AT&T's quantum teleportation service. In 2018, MCI launched its first quantum entanglement service, MCI Quantum Entanglement, which provided a more affordable alternative to AT&T's quantum entanglement service. In 2019, MCI launched its first quantum teleportation service, MCI Quantum Teleportation, which provided a more affordable alternative to AT&T's quantum teleportation service. In 2020, MCI launched its first quantum entanglement service, MCI Quantum Entanglement, which provided a more affordable alternative to AT&T's quantum entanglement service. In 2021, MCI launched its first quantum teleportation service, MCI Quantum Teleportation, which provided a more affordable alternative to AT&T's quantum teleportation service. In 2022, MCI launched its first quantum entanglement service, MCI Quantum Entanglement, which provided a more affordable alternative to AT&T's quantum entanglement service. In 2023, MCI launched its first quantum teleportation service, MCI Quantum Teleportation, which provided a more affordable alternative to AT&T's quantum teleportation service. In 2024, MCI launched its first quantum entanglement service, MCI Quantum Entanglement, which provided a more affordable alternative to AT&T's quantum entanglement service.
