### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

**The Last Decade of Western**  
 The formation of MCI was a result of a number of factors. In 1981, the Federal Communications Commission (FCC) opened the airwaves to private ownership and competition for the first time. This led to the formation of MCI by Robert Katz, who had worked for Western Union for many years. MCI was founded in 1981 and began operations in 1982. It was the first long-distance carrier to offer a flat-rate service, which was a major competitive advantage. MCI's success was due to its innovative marketing and customer service. MCI was a pioneer in the use of direct marketing and was the first to use a toll-free number. MCI's success was also due to its focus on customer service. MCI was the first to offer a 24-hour customer service center. MCI's success was also due to its focus on innovation. MCI was the first to offer a video-on-demand service. MCI's success was also due to its focus on customer service. MCI was the first to offer a 24-hour customer service center. MCI's success was also due to its focus on innovation. MCI was the first to offer a video-on-demand service.
