### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

**The Last Decade of Western**  
The formation of MCI was a result of a series of events that began in 1980 when Robert E. Kahn, a former Bell Labs researcher, and John T. Dunlop, a former AT&T executive, founded Western Union. Kahn and Dunlop were looking for a way to break the monopoly of AT&T in the long-distance telephone market. They decided to create a new company that would provide long-distance service over a dedicated network of fiber-optic cables. This network would be owned and operated by Western Union, and it would be used to provide service to MCI. The company was named MCI Telecommunications Corporation, and it was founded in 1980. In 1985, MCI was acquired by WorldCom, and it became a part of WorldCom's telecommunications division. In 1997, WorldCom was acquired by Sprint, and MCI became a part of Sprint's telecommunications division. In 2005, Sprint was acquired by Verizon, and MCI became a part of Verizon's telecommunications division. In 2013, Verizon was acquired by Verizon Communications, and MCI became a part of Verizon Communications's telecommunications division. In 2015, Verizon Communications was acquired by Verizon Communications, and MCI became a part of Verizon Communications's telecommunications division. In 2017, Verizon Communications was acquired by Verizon Communications, and MCI became a part of Verizon Communications's telecommunications division. In 2019, Verizon Communications was acquired by Verizon Communications, and MCI became a part of Verizon Communications's telecommunications division. In 2021, Verizon Communications was acquired by Verizon Communications, and MCI became a part of Verizon Communications's telecommunications division.
