A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
 The formation of MCI was directly attributable to the fact that the last decade of RCA's existence was characterized by a series of events that led to its demise.

- December 11, 1980: MCI is established as a wholly owned subsidiary of RCA.
- May 1982: MCI is sold to the public through an initial public offering (IPO).
- June 24, 1985: MCI is sold to the public through an initial public offering (IPO).
