### A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

**The Last Decade of Western**  
The formation of MCI was directly related to the  
bankruptcy of RCA. RCA's bankruptcy was the result of  
a series of poor decisions and mismanagement over the  
last decade of the company.  
December 11, 1984  
RCA announced the sale of its General Electric (GE)  
share to GE.  
May 1985  
MCI was established by MCI Telecommunications Corp.  
which owned controlling Western Union International  
Inc.  
MCI International merged with Western Union  
1985  
MCI was merged with Western Union of MCI WorldCom  
June 29, 1985  
The merger of Western Union and MCI WorldCom  
resulted in MCI Telecommunications Corp.

## WFD 2025

Provided by Mark Godbout N6IV

Wrap up.

N6FRG WINTER FIELD DAY 2025

We arrived in Copperopolis at Barry's K06F0V home at 9am to a sunny blue sky and a crisp morning.

On site were Mike N6AXQ, Dee KM6ELF, Mike KB6USJ, Barry K06F0V (and xyl Cheryl), and myself, Mark N6IV. Helen KM6ELE arrived later to join the fun.

We set up a 40m doublet at 35feet, a 2 m Fm j.pole, and a 40m/80m wire antenna.

Qso's were to be had on 40m, 20m, and 10m. No contacts on 2m and we did not try 15m.

Propagation was fairly decent. We contacted HI, UT, WWA, OR, AZ, STX, NTX, ID, BC, MN, OK, NV, SDG, SF among others.

Helen and Barry made their first contesting qsos so now they are addicted like everyone else.

Clouds finally ensued and the temperature dropped to the point we said qrt.

We all are thankful to Barry and Cheryl for the accommodations, hot coffee, and homemade coffee cake.

All in all we had a good time and it was worth braving the elements for some good fellowship and ham radio.

**Winter Field Day January  
25th, 2025**

Winter Field Day is an exciting annual event for amateur radio enthusiasts, taking place on the last full weekend of January. It offers a unique opportunity for radio operators to set up field operations in remote locations, enabling them to connect with other participants worldwide. You may choose to participate solo or get your your friends, family, or whole club involved. Winter Field Day is organized by the Winter Field Day Association. The association strongly believes that ham radio operators should practice portable emergency communications in winter environments. This is because freezing temperatures, snow, ice, and other hazards pose unique operational concerns.
