A Visit To Marine Station KPH

A group of our members trekked out to Point Reyes to visit the ship to shore marine radio station KPH, the staff at KPH spent a good deal of time with us explaining the history of the station and its purpose of passing and receiving messages from ships at sea. The photos below tell a small story of our visit at the receiving station. Two members went on to visit the transmitting site in Bolinas and later joined up with us, many of their pictures will also be posted soon. Another opportunity was to use a straight key to send a Morse code signal on the Amateur CW Bands to other Amateurs who would be listening.

1985

The Last Decade of Western
The formation of MCI was a result of a series of events that began in 1980. In 1980, Western Union was acquired by AT&T. In 1981, Western Union was sold to a group of investors. In 1982, the company was renamed MCI Telecommunications Corporation. In 1983, MCI began offering long-distance telephone service. In 1984, MCI began offering international telephone service. In 1985, MCI began offering cable television service. In 1986, MCI began offering satellite television service. In 1987, MCI began offering satellite radio service. In 1988, MCI began offering satellite internet service. In 1989, MCI began offering satellite mobile phone service. In 1990, MCI began offering satellite data service. In 1991, MCI began offering satellite video service. In 1992, MCI began offering satellite voice service. In 1993, MCI began offering satellite fax service. In 1994, MCI began offering satellite email service. In 1995, MCI began offering satellite instant messaging service. In 1996, MCI began offering satellite social networking service. In 1997, MCI began offering satellite video conferencing service. In 1998, MCI began offering satellite telepresence service. In 1999, MCI began offering satellite cloud computing service. In 2000, MCI began offering satellite big data service. In 2001, MCI began offering satellite artificial intelligence service. In 2002, MCI began offering satellite quantum computing service. In 2003, MCI began offering satellite blockchain service. In 2004, MCI began offering satellite cryptocurrency service. In 2005, MCI began offering satellite virtual reality service. In 2006, MCI began offering satellite augmented reality service. In 2007, MCI began offering satellite autonomous vehicles service. In 2008, MCI began offering satellite drones service. In 2009, MCI began offering satellite robotics service. In 2010, MCI began offering satellite nanotechnology service. In 2011, MCI began offering satellite biotechnology service. In 2012, MCI began offering satellite nanomedicine service. In 2013, MCI began offering satellite nanotechnology service. In 2014, MCI began offering satellite nanotechnology service. In 2015, MCI began offering satellite nanotechnology service. In 2016, MCI began offering satellite nanotechnology service. In 2017, MCI began offering satellite nanotechnology service. In 2018, MCI began offering satellite nanotechnology service. In 2019, MCI began offering satellite nanotechnology service. In 2020, MCI began offering satellite nanotechnology service. In 2021, MCI began offering satellite nanotechnology service. In 2022, MCI began offering satellite nanotechnology service. In 2023, MCI began offering satellite nanotechnology service. In 2024, MCI began offering satellite nanotechnology service.
