KB6USJ Net Controller For August 12th Monday Night Net

Coverage Area Improved After New Tower and Antenna Installation Completed On Fowler Site

About one and half years have passed since the collapse of the tower due to high winds which damaged the club repeater site. The new tower and antenna now installed, the signal reports from members as well as area Hams have shown a marked improvement both in reception and transmission capabilities. A long awaited project now complete thanks to all members who contributed.

Markleville Death Ride 2024

The day started out bright and calm then the fury of the storm arrived
